Software Engineer

I am an agreeable person with a diverse skill set and a strong desire to help others succeed. My time at Kenzie Academy has made me a well educated full-stack developer who is ready for today's workforce. My skillset includes my **technical skills:** Javascript, react, css, node.js, HTML5, mongoDB, and some Java, combined with my personal skills of communication, healthy work ethic, and the ability to remain calm in most situations. As a software developer, it is my intention to master the code in which i will be working on, and contribute to a healthy working environment by being helpful, adaptive, and understanding.

EDUCATION

Kenzie Academy Full-Stack certified

Lapeer West High School class of 2013, 3.6/4.0 GPA

Mott Community College, no degree, 3.9/4.0 GPA

TECHNICAL PROJECTS

Challenges

As the Developer, I made an app to organize some of the final assignments that I needed to complete my Kenzie education. I had a lot of fun doing these challenges.

Unhinderd

I worked on a team with three other developers to create this messaging app that translates to and from 107 different languages!

PREVIOUS WORK EXPERIENCES

Production Associate, Gestamp NA; Lapeer, MI—2014-2016

- Assembled small motors in a timely manner, always surpassing the production goals set by the management team.
- Inspected and tested every part that passed through the line, leading to our company gaining several deals with well-known companies due to the superior quality of our work.
- Trained others how to safely and efficiently run complex machines on occasion, contributing to our line consistently exceeding safety expectations set by the management team.

Bartender, North Branch Lounge; North Branch, MI—2017-2019

- Quickly and efficiently mixed cocktails and sent food orders to keep customers happy and coming back.
- Socialized with customers (only the ones who wanted to be talked to) and kept them entertained, amassing several weekly regulars.
- Maintained a healthy relationship with all of the staff members, raising enthusiasm and encouraging them to ask me for help if any was needed.

Line Clearance Tree Trimmer, Kappen Tree Service; Lapeer, MI—2019-2020

- Safely removed limbs from above/around/in contact with high voltage lines, lending a hand in maintaining and restoring power in the Michigan thumb area.
- Maintained chainsaws and other equipment to prevent injury and assist in productivity.
- Attended several weekend classes to better myself as a worker, gaining certifications in aerial rescue and CPR.
